

NEWSLETTER SUSTAINABILITY COMMITTEE

MARCH 2024

SET ALIVE IN
THE AGENDA:
MEMBERS
MEETING
15 MAY 2024

Dear owners of Groenhoven,

A Special Members' Meeting will take place on 15 May 2024. At this, owners will set out the total package of sustainability measures for the Groenhoven complex.

This will then be called the Definitive Design and they can start working on the Technical Design.

The Technical Design is expected to be ready by the end of 2024. Then the decision on implementation will have to be made.

Come to the upcoming Special Members' Meeting to stay informed and cast your vote. Let's stand together behind a sustainable future for Groenhoven.

When

15 mei 2024
wednesday

Time

19:30
Start 20:00

Where

Collective GH 650
Big Room

Wanted Construction Committee

When the Final Design is accepted, the Technical Design phase can start. This is when requests for quotations start and technical designs are made. These can be assessed by an independent Building Committee to be formed. Members of this committee should preferably have some technical or construction background.

Interested in helping Groenhoven with this? More info at the e-mail address below.

Activate all owners

Every vote counts to get millions in subsidies and the Heat Fund to help make your Groenhoven more sustainable. Probably in autumn 2024, we will have to make sure that at least 2/3 of the owners will vote soon. Those votes all count for the future of Groenhoven.

Help recruit, empower and encourage voting. More info at the mail address below.

Elke stem telt

National Clean-up Day 23 March

Spring is just around the corner! That means spending more time outside and enjoying the happy singing of birds and the nature around us. Therefore, we invite you to join us on the National Clean-up Day and spend an hour cleaning up litter around Groenhoven. On Saturday 23 March, we will organise a clean-up action from 11:00 to 12:00. We will gather at the Collective (Groenhoven 650). Coffee, tea, litter pickers and rubbish bags will be provided. Will you come and help too?

Timeline

When did we start again?

Update

What have we been working on since the last update?

- 1 We voted for district heating on 17 January 2024. 90% of the votes were in favour. But the turnout was only around 50%, it needs to be higher!
- 2 An inspection by district heating engineers has since been held in February to see how this can be realised in Groenhoven.
- 3 Groenhoven is a municipal monument. Frame renovation requires an environmental permit with the municipality of Amsterdam.

*More information on making Groenhoven sustainable and documents for the BLV can be found in [Rappange's Portal](#).

What are the next steps?

All owners have the right to vote at the Special Members' Meeting 15 May. What are you voting for? Better insulation, individual heating and long-term savings. You vote to start the technical phase. Get drawings and elaborations done. Get quotes and grants.

Einddoel:

-  Increase living comfort
-  Lower energy consumption
Energy label B
-  Monthly costs stabilise
Property value up
